#### NEW YORK STANDS SECOND PAGEANT GIVEN IN IN FATAL AUTO ACCIDENTS

Washington, Aug. 17. - Nes Yerk was second in the list of states having the largest percentage of deaths due to automobile accidents in the year 1922, according to an analysis covering the entire country just made available by the c**ensus bu**reau.

California led the list with 24 deaths for every 100,000 of population, and reported one-fourth of all accidental deaths. Then came New York with 16.7; New Jersey with 16.4; Colorado, 16.3; and Illinels, Maryland and Rhode Island, each 15. The California rate for automo-

ceeded the rate for her city population. The other states show a higher rate for cities than for rural districts. In Los Angeles the automobile death rate was 29.5 per 100,000 of

population, this being the highest

bile accidents in rural districts ex-

### DYING MAN MAY BE M'DONNELL SLAYER

Police May Be Able to Connect action of the leaders of the National Hermit With the Death of Policeman's Son

New York, Aug. 17. - While a man who said he was John Eskowsky of Philadelphia lay dying tonight in Staten Island hospital with four bullet wounds in his head and body, detectives surrounded his bedside, believing that if he regained consciousness they might be able to connect him with the murder of eight-year-old Franc's McDonnell, who was slain near Port Richmond on July 14.

Eskowsky was shot twice in the back and then fired two bullets into his head with his own pistol this afternoon after he had been cornered in a thicket near Grant City by a posse of policemen and residents. He had been sought for several days by the authorities on complaints made by several boys in the neighborhood who charged him with annoying them. Eskowsky, about 36 years old, unkempt and eccentric in his actions lived a hermit-like existence in a hut on Staten Island, the police say.

## More Song Books Arrive

We had thought we had fully anticipated the demand that would follow. The Star's unprecedented offer and had secured a sufficient supply that would meet all demands.

Our allotment, however, was completely sold out at a time when it appeared that everybody was clipping the coupon. That none of our readers should be disappointed we made arrangements with the publishers to rush another shipment by express and we are pleased to announce these arrived Saturday and, beginning this morning, we will try to keep you supplied, but there is a limit of course and we advise you to bring or mail in the coupon today.

#### Carry a Good Tool Kit and Select Compact Camping Equipment

If you have gone over your car and carried out the suggestions given last week and the week before, you can be fairly certain that you will have no mechanical troubles during your trip.

The equipment you will need in the next thing to consider. This includes the spares you should carry for the car as well as such things as tent, bed, etc.

A good kit of tools should be taken with a set of wrenches that will fit every nut and bolt on the car and a special box spanner to fit the spark plugs. In addition to these you should have the special tools and spanners supplied with your car to fit certain parts. See that there is a good screw driver, cold chisel, hammer, pair of cutting plyers, a medium sixed flat, half round and round file. Make sure that you have a tire pump that is in good order, for you will probably be a long way from free air stations during your tour. It is also a good idea to carry a piece of wood about 12" long by 4" wide and 2" thick to rest the jack on. If you are unfortunate enough to have tire trouble or have to jack up the car on soft ground, you will find this piece of wood very useful.

Your apares for the car should include in addition to a spare tire and two extra tubes, two or three good spark plugs, a spare fan belt and hose connection, a set of lighting buibs, small box of split pins, washers, bolts and nuts, and 100 ft. of window cord. If you watch the level of the gasoline in the tank and the oil in the crank-case it is not necessary, to carry along extra gasoline or oil as you are never very far from a filling station.

watch the level of the gasoline in the tank and the oil in the crankcase it is not necessary, to carry along extra gasoline or oil as you are
never very far from a filling station.

Wrap the tools and spares that will not fit into the tool roll in
clean rags or cloth and pack them under the front seat, if possible,
so that you can get at them easily when you want them.

The next thing to consider is
the tent. There are a number of
special tents on the market, some
good and some not so good.
Choose one that is guaranteed
waterproof and that can be easily
erected by one person if necessary. The khaki or tan colored
tents are usually more waterproof
than the white tents, and are not
so susceptible to mildew. See that
your tent has plenty of head room
and that there is foom for your
bed and table without crowding.

If possible buy one with a sewed
in floor and mosquito-proof doors
and windows. This last is very If possible buy one with a sewed in floor and mosquito-proof doors and windows. This last is very

important.

Nearly all good tents have an awning that can be extended over held in front with two poles. This enables you the top of the car or held in front with two poles. This enables you to keep the inside of the tent clear and gives you more room to move about for most of the luggage can then be left in the car. On wet days you will find this feature especially valuable, for the stove can be brought inside the tent and the meals cooked and served without any trouble.

You have a number of folding heds to choose from. The main

without any trouble.

You have a number of folding beds to choose from. The main thing is to select one that is strong and compact when folded up. Whatever you leave behind, don't let it be the bed. A folding bed is worth all the space it takes up. If your pocket will stand it, buy an air mattress. You will find this will make as comfortable a bed as any you ever slept in and you will not require more than three blankets to cover you. If you do not have an air mattress, be sure to carry several pairs of blankets and sleep with as many blankets UNDER you as over you. You will find hat the cold has a way of creeping up and freezing your back if you do not have enough blankets underneath. If the weather it very cold place a number of sheets of paper between the mattress and blankets and you will find it belps to keep the cold out.

sheets of paper between the mattress and blankets and you will find it beips to keep the cold out.

For cooking purposes on a camping tour there is only one kind of stove to use and that is the gasoline printy. If there are only two in the party, a two-burner will do nie by but for three or four persons take a three-burner. Wit' this kind stove you co not need to worry about wood or wet days. Then again with a gasoline stove, you can have a meal on the fre five minutes after you stop. If the weather is very cold a gasoline stove will near to the tent very nicely, although you must be careful not to close up all openings or the fumes may cause trouble. fumes may cause trouble.

If your tour is only going to be a short one, then you may be able to make up an outlit for cooking the meals from the family

much better to buy one of the aluminum outfits that has utensils that nest into each other and takes up very little space.

I am not going to give you a list of foods for that will depend on your own particular fance, but I would like to advise you not to load up with a lot of canned goods. You can buy fresh vegetables and meat as you go, and you will find you will enjoy your meals much better if you use iresh food than you will if you use a lot of canned stuff.

## WITH RAPIDITY

Recent Decline Assertativ Marely Consulting of Weshered **Technical Condition** 

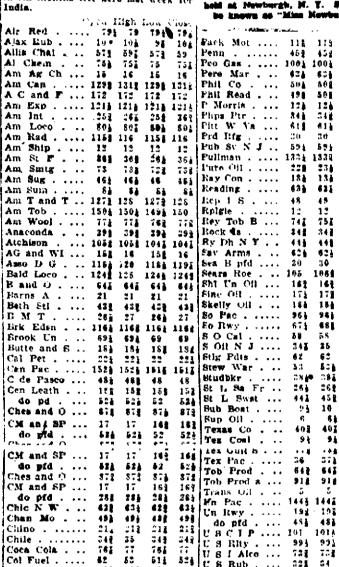

Now York, Aug. 17. - A sudden upwring in stock prices after nearly 10 days of reaction and the ready ab-norbition of meanly \$150,000,000 of new bend efforings were the outstanding features of last week's financial mar-

The rapidity with which stock prices moved up when selling presthe belief that the recent decline was largely a correction of a weakened technical condition.

Bond prices moved within narrow and irregular limits. The deadlock over the exacuation of the Ruhr and other problems confronting the London conference served to divert spec-MOP PICKERS—For September 2. Inulative interest from the foreign goverament issues, which previously had recorded handsome gains on the prospect of a rettlement of the reparations quettion. Foreign exchanges held relatively steady.

Money rates were unchanged with a plentiful supply of funds available for all legitimate commercial and stock market purposes. Two large blocks of first class commercial paper were resorted to have been bought by local banks at two and threefourths per cent, the lowest rate ever recorded, but the bulk of the paper business was done between three and three and one-half per cent.

The first foreign shipment of gold in six months left here last week for

CORN GROWS ALMOST UP TO ETERNAL SHOW!

Visitors May nee Corn Growing in Apdes, Where Average Comment Trus-province to \$5 Degrees.

lthaca, Aug. 17. - Corn will grou sad mature at an attitude of 12.000 How Poins in Side and Dragfeet with an average temperature not above \$5 degrees throughout the growing season, and it does this in the Andran countries of Bouth America. In this mountain country corn grows at a colder permanent temperature than it is known to anywhere also in the world.

In Colorado, 11.000 feet of skitude means perpetual snow, but down in the tropics, where the effect of the altitude is somewhat offset by the mearness to the equator, corn matures ut 12,500 feet. out is corn has a max-imum height of six feet, but is rank, green, and healthy in every respect. The mountain Indiana have growing this corn for conturies, and although they have different types and varieties, they do not give much attention to selection of strains. Red. blue, yellow and purple kernels may be seen in the same field and some-

While no particular commercial importance attaches as yet to this type of corn, it is being crossed with Unitof producing a strain for use at high altitudes in this country. The type of corn grown in the corn belt of the middle west probably cannot be improved upon for that territory, but a plant would be a boon to farmers by many parts of this country where corn is now at best a very uncertain gamble.

ging Down Feelings Were Reduced by Lydia E. Plathom's Vegetable Comp

table Compound has given me back my health and I can not praise it enough. I am perfectly willing that you should use these facts if my letter will help other women who still mafer."—Mrs. Districts Boss. R. P. D. 1. Masses, M.Y. The spirit of helpfulness shown in the letters we are constantly publishing is worthy of notice.

These women know by experience what Lydie E. Pinkham's Vegetable Compound will do. Your troubles are the same as theirs. Ian't it reasonable to expect the same results?

If you have pains and a dragging-down feeling and are servous and irritable, profit by Mrs. Bush's experience and give the Compound a trial.

#### MOTORISTS SPEED AWAY

of Main and Mets Street.

How quickly keen anticipation may turn to bitter disappointment and chagrin was illustrated by an incident occurring at the corner of Main and Dietz streets Sunday afternoon, it af spectators and considerable rejoicing on the part of the comparatively few

sedan, bearing license numbers that indicated the car is owned in Otsego Dieta street and going at perhaps close to 20 miles an hour the rear hour of the car flow open and the navement there was metell-tale crack of breaking glass accompanied by a pedestrians about the corner seemed to recognize.

The car was occupied by a merry company, but it never halted. Some one in the rear seat shut the door with a bang and on up the street the

Not so with the people on the street, however, Before it was certain each carried away a couple of bottles and soon disappeared from view "Canadian ale," said a spectator who stood near and "not over two or three of the dozen or more bottles in the bag were broken," he added.

The incident seemed like an oasis in a desert to the dry individuals who Won by Isadore Wilber, Cooperstown, pleted their project satisfactorily, grabbed the bottles and rushed off, bonds, Walrath's Jewelry store; 2nd, The number enrolled in these clubs. learn the number of the motor vehicle beense and no one could be found who would admit having tested the contents of the bottles, but from the expression on the faces of the few who ecured one or more of the bottles, they had no intention of turning them over to United States Commissioner Seybolt, for him to d-stroy.

#### WHIL PROBE GASOLINE PRICE.

Albany, Aug. 16, - George W O'Brien, first deputy attorney general, Friday promised an investigation of the price of gasoline in the city of Albany. The local price generally is 18 cents a gallon, as compared with Acting in the absence of Attorney General Carl Sherman, Mr. O'Brien said the investigation would be placed in the hands of Deputy Francis W. Cullen of Buffalo, who has been in-vestigating statewide gasoline price

#### Sidney Asks Bond Issue.
